Hackathon details

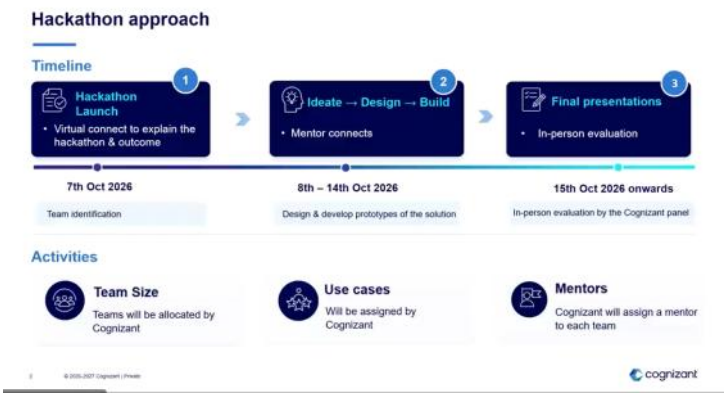

07 October 2026 06:01 PM

Persons

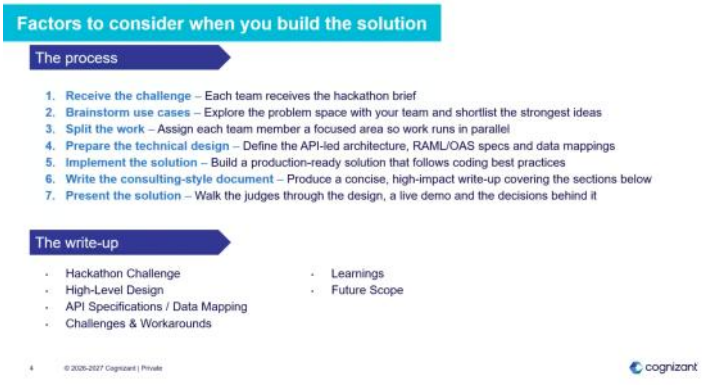

Animesh
Sreenekanth - hyd
Mohit -banglore
Mani - chennai

Mentors
1. Karthik
2. nandini

Evaluation Rubric
Attribute
1. Original thought | 20% (Innovation) –
Novel integration scenarios, creative use of Anypoint Platform capabilities, unexpected combinations of connectors and APIs.
2. Impressive idea | 20% (Innovation) –
Clear, measurable impact on the end user's experience or business productivity through connected systems.
3. Right design used | 25% (Execution) –
API-led layers (System, Process, Experience), RAML/OAS specs, DataWeave transformations and connectors - each used purposefully.
4. Best practices | 20% (Execution) –
Reusable flows and global configs, secure properties, centralized error handling, structured logging, and meaningful MUnit coverage.
5. Effective storytelling | 15% (Communication) –
Role-led narrative, the live API demo flows naturally, all team members speak, Q&A handled confidently, time kept.
